

Not Me

music by Kilker; lyrics by SMEE

Don't come looking for me I can't see your face anymore.
Once I trusted in you, now our confidence is forlorn.
Try to see if I'm free, but not me.
I don't know how to explain it.

Look away from the sun, I don't want your eyes to be burned
To turn on your heels and run won't show the world what you've earned
Try to steal to be free, but not me.
I don't know how to explain it.

Don't come looking for me I can't see your face anymore.
Once I trusted in you, now our confidence is forlorn.
Once I trusted in you, now our confidence is forlorn.

No Words

music & lyrics by SMEE

She said we were young and then she spoke no other crime
Once in a lifetime you touch the tip of a flame.
And how can there be no words? How can there be no words?

She, she's like red blending to white
A war to be waged is folded inside and truth passes by
And how can there be no words? How can there be no words?

How can there be no words as we walk through these days?
The letters and sermons are written in vain and then fade away

With blood on her knees, she's anxious to stay
She waits at the gates with the keys in her hands but doesn't know what to say
And how can there be no words? How can there be no words? Where have they gone?

Floor Mat (Hey You)

music & lyrics by SMEE

Hey you, you pegged me all wrong.
And I've not been gone that long.
Now I don't trust my intuition.
It's just I'm slow to make decisions.

I took a ride, went looking for God and I was on my way, yah. And it pulled my chord.
You made a floor mat of my fate. You made a floor mat of my fate. And you made a
Floor mat of my fate. Walk around, walk around my place.

Under the threat of a turning sky, even a man has been known to cry.
Now I don't need your education or religious fornication.
I took a ride, went looking for God; and I was on my way, yah.

Love Gains

music & lyrics by SMEE

I won't sleep enough tonight
Hold at bay a deep addiction
Rolling on the streets tonight
An autumn wind is attrition

And it's so hard to see somebody playing your song
Inhalations last way too long

I won't eat enough tonight
A hole in my soul is my condition
Rolling along the streets tonight
Being lost is my perdition

When you're walking away, the light rains down
Apparitions cause me to drown in your wake, then you stay.

When I see you lying there with your head on the pillow
And your hand rests on your chest
Your hair falls over your face like a Weeping Willow
This is nothing like the first time we met
But I can hold your hand and forget my sorrows
And I know you can do the same
Thank you for the time you've lent, and I've borrowed
In the letters of your name
I want to thank you for the time you've lent, and I've borrowed
In the letters of your name, love gains

Stepping Stones

music & lyrics by SMEE

Just come around when the morning comes, we'll start again as if we first met.
And I'll forget about the things you said in the bed. Stepping stones to get back to me.

You've been stepped on and stoned, when you're not shoed.
You've been stepped on and stoned, in your cool harmony.
Stepped on and stoned, your head will fly.
But baby it's still muddy on the other side and nobody will be waiting for you.

Well, I almost care about half the time, the other half you're just on my mind.
Now I'm just waiting to receive the call. Stepping stones, the key's in the car.

Leaving early, the clocks are running. The scene was changing and getting funny.
My tank is empty, but it keeps on running. I put my hands up to keep from coming.
Take my time and make it worth my money. I'm begging hard yah cause you're so stunning. You
put the bee into my honey.

I meant to meet you at the evenin' show, but when I got there and the place was closed
I knew I had some explaining to do. Stepping stones, scrape the shit right off the shoes.

And You Came

music & lyrics by SMEE

These days when you are so far away and it's hard to stay awake
Thinking 'bout how I might survive hard times being alone
I stay up nights wrapped around accord and a distance I can't break
Holding tight to your plastic voice that comes through the telephone
And you came.

There was a time I had it with this lonely planet
I hit the backstreet alley like a rat hidin' in the shadows
I was biding time, fighting mine to the best of none and so
This pain, I swallow. This pain I swallow.

And you came. You came out of the darkness.
And you gave, you gave me a simple reason.
And you stayed with me.

Put it in my heart, put it in a hole. Just keep out what's in our way.
You play your part and I'll play mine 'til the end of days, 'til the end of our days.

Toll

music & lyrics by SMEE

What do you need to take your life apart? A burning rage or a crazy heart?
I keep on working from 8 to 5, but I just don't know what's keeping me alive.
This place moves in a state of confusion. Each one sees the world in just his way.
A compromise seems only illusion. Got to find your own way to get through the day.

Well it's time to make up my mind. Take your keys and move down the line
The indecision is my wandering mind has taken a toll.

My back is breaking from the weight of the world. All of this pressure building in my mind
I'm gonna leave a message in a bottle and take a step across the Maginot Line
I'm wholehearted and I feel it throb. Open my chest and lay it in my hand.
But to put yourself out on a line is like walking barefoot on a tightrope bridge

Well it's time to make up my mind. Take your keys and move down the line
The indecision is my wandering mind has taken a toll.

Walk out the door and the world's before me. Spin me around like a two-cent charm
I have only the option to whore me. But it keeps me alive.
'Cause when you're paying your toll, you've got to pay as you go.

Pyramid

music by Kilker; lyrics by SMEE

When in the night they call your name
And tell you to pack up your things
Hang your life up on the wall,
Leave your family, leave them all

Acquiesce to a common cause
At least they say you have some balls
To stick your neck out to the blade
A gladiator's accolade

But, I am not just any man sent off to fight in foreign lands.
Fearless leaders take the stand; the blood that stains is on your hands.
But when I die, I die alone; engrave my name deep into stone.
And I will not be a slave, building ancient pyramids.
Because all that I know is that wherever I go in this world, I've lost all my friends.

March out over seven seas
Flagging suspicious unease
A soldier bloodies his own hands
And leaves his guts out in the sand

Terror steeps out of rhetoric
Bring on mainstream politics
What public sentiment implores
And money's your complacent whore

But, I am not just any man sent off to fight in foreign lands.
Fearless leaders take the stand; the blood that stains is on your hands.
But when I die, I die alone; engrave my name deep into stone.
And I will not be a slave, building ancient pyramids.
Because all that I know is that wherever I go in this world, I've lost all my friends.

What will we do in this world when we have no more friends?

The Dics Theme Song

music & lyrics by SMEE

Raise your fist, raise your flag, raise your voice until it quivers the air.
Put aside your weakened pride and overcome what makes you shake with fear.
If you want it, you just have to go and get it. Do what you need to become infamous.
The Infamous Dics

Bring your family; bring your friends. Hang your foes in public show.
Burn your village; raze your town. Cut a road through the heart of it all.
If you want it, you just have to go and get it. Do what you need to become infamous.
The Infamous Dics
